LOURDHU BRITTA P

Azhagappapuram, Tamil Nadu

Email:lourdhubritta24@gmail.com| ☎ 6374080772 | Linkedin | Github

OBJECTIVES:

Entry-level Python and Django Developer with hands-on experience in building web applications using Python, Django, SQL, HTML, CSS, and JavaScript. Seeking an opportunity to contribute to a growth-oriented organization while enhancing my technical and problem-solving skills.

EDUCATION:

Anna University

Arunachala college of engineering for women | Bachelor of Engineering Tamil Nadu | 2021 – 2025

- Cumulative **CGPA**: 8.5

Additional course:

- Python full stack **Qspiders**

INTERNSHIP EXPERIENCE

Python Full Stack Intern **Nim Technology | Present**

- Assisted in developing web application features using Python and Django.
- Worked with SQL databases and performed CRUD operations.
- Collaborated with team members to debug and enhance application functionality.

Full stack Web Intern **AK Infopark**

- Developed a dynamic **e-commerce website** using HTML, CSS, Bootstrap, and JavaScript with product listing, cart, and order management.
- Created a **responsive college website** showcasing institutional details, academic programs, and contact information.

PROJECTS:

Employee Database Management System |Technologies: Python, Django, SQL, HTML, CSS

- Developed a Django-based web application implementing full **CRUD operations**.
- Managed employee records including name, department, role, and status.
- Implemented **search and filter functionality** to improve data accessibility and usability.

Cloud-Based Attendance System Using Face Recognition|Technologies: React.js,SQL, Face API

- Built a full-stack attendance system using **real-time face recognition**
- Integrated webcam-based face detection using **Face API** for secure attendance logging.
- Used **Cloudinary** for cloud image storage and provided a manual fallback attendance option.
- Improved attendance accuracy and reduced manual errors.

TECHNICAL SKILLS

Programming Languages:Python,JavaScript,SQL.
Web Technologies: HTML,CSS,Bootstrap.
Frameworks & Libraries: Django, React.js
Databases: Oracle SQL
Tools: GitHub, VS Code

TECHNICAL TRAINING & WORKSHOPS

Conducted **15+ technical workshops** on **Python, Django, App Development, and Machine Learning** for students and beginners.
